Environment Policy of HWB

We, at Heavy Water Board, are committed towards protection of environment and reduction of our Carbon Footprint by striving to achieve excellence in environmental performance. We will fulfill our commitments by:

- Adhering to the National Environment Policy and compliance with environment related legislations, acts & rules applicable to Heavy Water Plants and Heavy Water Board Facilities.
- Integrating the environmental concerns into our decision making so as to mitigate the impact of our activities.
- Protecting & conserving the natural resources by ensuring their judicious use.
- Implementation of pollution prevention measures and best environmental practices in our industrial activities to minimize potential impact on the environment.
- Adopting 3 R's principle (reduce, reuse, recycle) in all our industrial activities.
- Promoting environmental awareness among our employees by training, educating and encouraging them to work in an environmentally responsible manner.
- Use of renewable energy, promoting production of green energy sources and development of green belt.

HWB management strongly believes in promoting and maintaining clean & green environment in all its establishments.

(V.V.S.A. Prasad)
